

Houston Livestock Show and Rodeo™

Wine Post-Entry Instructions

Reviewing Entry

You can review your entry at any time simply by logging into the online entry website and either:

Select your order # from the Submitted Entries drop-down list and click the View button or enter a Winery # from your e-mail receipt and click View.

Updating UPC/EAN Numbers

The wine UPC/EAN number is very important; it allows us to quickly and accurately categorize your wine on arrival.

On the Summary Page, click the Update UPC button to review all the wine UPC numbers. Enter and correct UPC numbers and then click the Update button. Review the result column for any errors, fix if necessary and click Update until all are correct.

Click the Back button at the bottom of the page when done.

NOTE: If you do not have all the barcode numbers needed, please contact the winery. The winery can create a login account, if they do not already have one, and then review and update UPC/EAN numbers using the winery # you provide them.
