

Provide Your Students Career Kits!

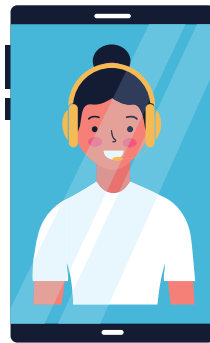

Career Test Drive® Kits provide students the ability to explore high-demand, high-growth careers at home through hands-on, guided simulations.

Career Test Drive® Kits offer resources for students and educators:

Students try on **two in-demand careers** using our Tik-Tok inspired **guided instruction videos** and booklets.

Students attend a **virtual LIVE session** to debrief the activity and **connect with industry professionals**.

Educators, like you, gain access to a **portfolio of career planning extension activities** to engage students with.
