

RECYCLING COMMITTEE

The Recycling Committee works during the Houston Livestock Show and Rodeo and the World's Championship Bar-B-Que Contest to recycle cardboard and aluminum from all areas and venues of NRG Park.

This work reduces the waste footprint and return money to the Rodeo for student scholarships.

The Recycling Committee has been actively involved at the Rodeo since 1992 through various iterations and became a standalone committee in 2011.

We presently have about 120 volunteers working in 5 teams for 29 days during February and March.

Are you passionate about our world/community/city, helping students to succeed, Rodeo events or Western heritage...?

All of this and more is part of volunteering with the Recycling Committee at the Houston Livestock Show and Rodeo!

Patrick Caserta
Recycling Committee Chairman

Houston Livestock Show and Rodeo™
