# 2024 INTERNATIONAL WINE COMPETITION

Thank you for your interest in the Houston Livestock Show and Rodeo 2024 Rodeo Uncorked! International Wine Competition. This handbook is designed to provide wineries, suppliers and distributors important information about the Competition and answer any questions. The current version of the competition handbook is available on the Houston Livestock Show and Rodeo website at [www.rodeohouston.com](http://www.rodeohouston.com) (Get Involved / Competitors/ Wine Show) and may be subject to substantial revisions or changes.

## **HOUSTON LIVESTOCK SHOW AND RODEO**

The Houston Livestock Show and Rodeo™ promotes agriculture by hosting an annual, family-friendly experience that educates and entertains the public, supports Texas youth, showcases Western heritage and provides year-round educational support within the community. Since its beginning in 1932, the Rodeo has committed more than \$575 million to the youth of Texas. In its 21<sup>st</sup> year as a premier attraction at the Houston Livestock Show and Rodeo, the Rodeo Uncorked! program starts with the prestigious International Wine Competition – one of the largest wine competitions in America, judged by a panel of recognized wine experts. The wines are judged by local and national experts with extensive wine credentials. Judging is based on a double-blind procedure and audited onsite by PricewaterhouseCoopers, ensuring the highest integrity.

## **RODEO UNCORKED! OBJECTIVES**

The International Wine Competition, and associated events, were founded in 2004 for the following purposes

- To promote healthy competition among international and U.S. producers and drive continuing improvement in the quality of all wines, and in particular, Texas wines and vineyards;
- To raise awareness of Texas and the annual featured region's wines in the United States and internationally;
- To introduce Houston Livestock Show and Rodeo patrons to the outstanding quality and phenomenal values available in today's wines from around the world;
- To introduce regional wine aficionados and professionals to the educational and charitable aspects of the Houston Livestock Show and Rodeo;
- To use a system of judging wines that is reliable, simple, fair and accurate.
- To become the most respected and reputable wine competition and auction in the U.S., by recognizing the best wines entered by varietal and region and awarding those wines with a medal consistent with the quality of their production by seating the most qualified and best trained judges possible.

## **FORCE MAJEURE**

Neither Party shall be liable for any delay or failure to perform its operations, activities, shows, events and/or obligations owed pursuant to this Agreement to the extent such delay or failure results from a force majeure event. A "Force Majeure Event" is defined as any occurrence which makes performance by a Party, in its sole discretion, illegal, impossible or commercially impracticable and includes, but is not limited to, any (i) material breakage or accident to equipment, machinery or facilities; (ii) any strike, lock-out or other labor difficulties (but not including a lock-out of employees by such Party); (iii) statute, ordinance, regulation, order, directive or rule issued by a governmental authority, including, but not limited to, those concerning public health and safety, animal disease prevention, detection and response and/or protection of the environment; (iv) final, non-appealable judicial decree or order; (v) pandemic, epidemic or quarantine as determined by the World Health Organization, the Centers for Disease Control and Prevention or state or local government authority or health agencies (including, but not limited to, the health threats of COVID-19, H1N1 and/or other infectious diseases); (vi) animal disease and/or quarantine; (vii) war, riot or insurrection; (viii) civil disobedience, public demonstration or sabotage; (ix) act of God, fire, flood, earthquake, hurricane, national disaster or explosion; (x) material inability to obtain necessary labor, materials, supplies, utilities or transportation; (xi) nationwide depression materially impacting the Party's ability to perform; (xii) embargo or energy shortage that disproportionately affects the invoking Party; or (xiii) any other cause beyond the Party's reasonable control.

### **Wine Samples**

In the event of an unexcepted closure, or inability to host the International Wine Competition, Roundup & Best Bites or the Champion Wine Auction & Dinner, wine samples received to date will remain in the custody of the Houston Livestock Show and Rodeo, as it would be logistically and financially prohibitive to reprocess the inventory by submitter.

# GENERAL INFORMATION

It is each winery's responsibility to ensure that it complies with all applicable rules and policies stated in this Handbook. Although the judging will take place in November 2023, the Show year assigned is 2024, to coincide with the Houston Livestock Show and Rodeo. All public wine events to showcase competition winners are typically held in February and March 2024.

## INTEGRITY OF THE COMPETITION AND RESULTS

The integrity, validity and reliability of this competition are paramount for the Houston Livestock Show and Rodeo.

- The competition follows generally accepted judging criteria that produce world-class standards of excellence.
- Great care has been taken to select qualified judges who have proven the high caliber of their palates in personal and professional pursuits.
- All judges will be trained on medaling standards generally accepted by most major wine competitions.
- Conflicts of interest have been scrupulously avoided in every aspect of this competition.
- No wine may be entered more than once in the same year, even if it is marketed under different labels. However, different vintages of the same wine may be entered, with each vintage being a separate entry.
- A real-time audit is conducted through the on-site monitoring and auditing during the competition by PricewaterhouseCoopers.

All aspects of this wine judging have been, and will be, conducted to ensure that the results have the highest degree of integrity and are fully worthy of the Houston Livestock Show and Rodeo.

6. Please note that neither the Houston Livestock Show and Rodeo nor its designees shall be responsible for any loss or damages which occur during shipment or delivery.

Further, the Show may refuse all entries that arrive before Monday, Aug. 1 and after Thursday, Oct. 19, 2023

7. We strongly suggest shipping or coordinating delivery of your wines with your local distributor.

## **WINE VARIETALS**

Class names reflect predominant consumer, trade, and restaurant classifications by varietal and by denomination. The International Wine Competition reserves the right, at its sole discretion, to combine classes when the number of entries so warrants, or to divide or reorganize classes if the range of sweetness, or other factors present, so warrants.

A wine must be properly classified per the country or state wine labeling requirements for varietals. Example: a wine with less than 75% Malbec should not be entered as a “Malbec,” but would be entered in a broader class, such as “Malbec Based Blends” or “other dry reds.”

**Old-World Wines are defined as wines produced and bottled in Europe and the Middle East, including: Armenia, Austria, Bulgaria, Croatia, The Czech Republic, Cyprus, England, France, Georgia, Germany, Greece, Hungary, Italy, Israel, Lebanon, Moldavia, Portugal, Romania, Slovakia, Slovenia, Spain, Switzerland and Turkey.**

Please pay careful attention to the residual sugar ranges on applicable classes in order to have your wine classified properly and judged with like wines. For all wines entered in a class with a residual sugar requirement, the residual sugar must be included on the entry form.

## **CLASSES TO BE JUDGED**

# THE COMPETITION

## COMPETITION RULES

- The Houston Livestock Show and Rodeo is not responsible for correcting errors on entry forms or incorrect information supplied and/or created by the winery staff or their designated representatives.
- An entry will be deemed ineligible if it does not meet all requirements set forth in this handbook.
- The Show is not responsible if a wine is later disqualified for being tasted in the wrong class, showing faults or for any other reason.
- No contestant shall be entitled to an award which has been disallowed as a result of their own error.
- Show management shall withhold awards for entries found to be ineligible and may recover awards made for ineligible entries revealed during audits of competition records. Please note: This includes that specific vintage of a medal winning wine remaining commercially available in Texas after the conclusion of the competition through March 31, 2024.

### **Fundamental Ethics**

Any entry found to have submitted deliberately misleading information may result in the winery being disqualified from all awards and, at the sole discretion of the Show's International Wine Competition, also may prohibit the winery from entering the judging in succeeding years.

## JUDGES, SUPERINTENDENT AND UMPIRES

### **Selection of Wine Judges**

Competition judges are recruited on local, national and international levels from all aspects of the wine trade and include enologists, winemakers, sommeliers, on- and off-premise retailers, distribution experts, wine educators and wine writers. A select group of the most avid and knowledgeable local consumers also serve as judges. Judges are selected based on their credentials, as well as their overall knowledge and good reputation within the local and national wine community, and at the sole discretion of the International Wine Competition management.

## **Judging Panels**

During Phase I of the Competition, up to twenty-four (24) judging panels consisting of five (5) judges each will be set up to consider each entry. On each panel, one judge will be designated as the panel head. Each panel will be comprised of judges representing differing perspectives of the industry to ensure multiple viewpoints are considered. The panel head will serve as the moderator for any discussion and will document the panel's scores. All judges will have equal votes. The paper score card will be submitted by the panel head to the scoring room.

Once a panel is defined, it will remain intact throughout the entire day of judging. The same panel will review all wines within a particular class or advanced competition. If a judge must, due to unforeseen circumstance, withdraw or be relieved by the Vice Chairman of Judging or Competition Superintendent, a new panelist will be selected from qualified alternate judges standing by. Each panel will be limited to judge no more than approximately 100 wines on either day during the primary medaling round of the competition. Judges invited to be seated on the semi-finals panel, super panel, or secondary super panel may statistically exceed this threshold.

Guest judges may be seated with the judging panels. Guest judges may participate in the panel tasting and discussion, however, no vote from a guest judge will count toward a wine's final score.

## **Training**

Prior to the competition date, training sessions will be held with all judges to review Houston Livestock Show and Rodeo scoring procedures, medaling standards, and procedures for finalizing Class Champion and Reserve Class Champion awards.

## **Superintendent**

The Wine Show has appointed a Competition Superintendent to ensure the competition remains accurate and in line with the highest industry standards. Any questions about the accuracy and integrity of the classifications, judging, etc. will be decided by the Superintendent in conjunction with International Wine Competition management.

## **Competition Umpires**

To assist the Superintendent in managing the judging process, questions from judges and competition volunteers, or inquiries about the entries themselves, there will be a crew of 2 to 4 umpires, including, but not limited to, the Vice Chairman of Judging and other designees.

## **PHASE I JUDGING: THE MEDAL ROUND**

### **Medaling Procedures**

- **Classes:** All wines will be divided into their respective classes and tasted by one panel of judges. Classes exceeding the capacity of one panel to taste will be divided into multiple classes.
  - Certain classes may be sub-divided according to residual sugar content (e.g., Rieslings, Sparkling Wines, etc.).
  - As needed, larger classes will be separated by suggested retail pricing or other criteria at the discretion of the Show to help the wines best compete against like wines in the judging and scoring process.
- **Flights:** Wines will be served in flights of no more than 12. Each judges' job is to taste, evaluate and score each wine in each flight assigned to their panel.
- **Panel Discussions:** Judges within the panel may discuss wines within each flight to help evaluate the wines and develop more accurate scores, after the initial individual assessment. Each judge will score each wine in the flight as Gold, Silver, Bronze, or No Medal.
- **Re-pour:** In the event a bottle served may be deemed unacceptable (i.e., corked, or other fault), the judges may request a re-pour. In the event all remaining samples of a wine are flawed, the wine will result in a No Medal.
- **Re-tasting:** Panelists may, upon request, re-taste and re-evaluate any wines from an earlier flight within a class, so long as that class has not yet been closed.
- **Auditing:** Once data is input to the system, it is verified by the scoring team against the score sheet submitted by the panel head. If any wine is re-tasted following the initial judging, the scores must be resubmitted on paper by the panel head to scoring to be verified once again by the scoring team. Once the scores and class awards for all wines within a class have been audited, the class is considered "closed," and the wines may not be re-evaluated nor re-scored by the panel.
- **Final Ruling:** If there are any problems, questions or disputes in the judging, the panel will call in the Superintendent and he/she or one of the designated umpires who will rule on the question or dispute. The Superintendent and umpires' rulings are final.

### **Individual Awards**

During the first round of the competition, judges will taste each wine presented in a class and vote individually to award that wine either a gold medal, silver medal, bronze medal, or no medal. The overall objective of this phase of the competition is to grade the range of wines based on the established medaling standards. At this stage, ties are allowed.

**Medaling Standards:**

|              |  |
|--------------|--|
| Gold Medal   | Of outstanding quality, superior to most. Reflects the best flavor, balance, style and winemaking for that class and price point |
| Silver Medal | Of great quality, reflects a standard to achieve in flavor, balance, style and winemaking for that class and price point         |
| Bronze Medal | Of good quality, reflecting balance and typical qualities of that class and price point; a drinkable wine without obvious flaws  |
| No Medal     | Of inferior quality, lacking balance or typical qualities of that class and price point  |

Each wine will be assigned a medal in Phase I based on the panel's votes as follows:

- **Double Gold:** If **all** five judges on a panel vote to give a particular wine a gold medal, the wine will be elevated to a Double Gold medal.
- **Gold Medal:** A wine with at least three gold medal votes and not more than one no medal vote.
- **Silver Medal:** A wine with at least three silver medal or higher votes and not more than one no medal vote – OR – a wine with two gold and at least two bronze votes.
- **Bronze Medal:** A wine with at least four bronze or higher votes (example: 3B, 2S; or 2B, 2S, 1 No)
- **No Medal:** Two no medal votes result in a no medal score, regardless of the medal of the other votes.

**Class Awards**

All wines will receive a numeric medal summary based on the scale below, calculated by the computerized database. For instance, three bronzes (1 point each), one silver (10 points) and one gold (100 points) are summarized as 113. This is not a score. Rather, it is a numeric summation of the voting (a.k.a, the medal summary). (See Appendix II for more examples.)

|                  |                         |                   |
|------------------|-------------------------|-------------------|
| <b>Gold(G)</b>   | <b>Excellent</b>        | <b>100 points</b> |
| <b>Silver(S)</b> | <b>Very Good</b>        | <b>10 points</b>  |
| <b>Bronze(B)</b> | <b>Good</b>             | <b>1 point</b>    |
| <b>No Medal</b>  | <b>Average or below</b> | <b>0 points</b>   |

Once all the wines in a particular class have been tasted and medaled in Phase I, they will be ranked in descending order according to the medal numeric point summary listed above

**Class Champions and Reserve Class Champions:** The wine with the highest numeric summary that won at least a silver medal will be awarded the Class Champion. The wine with the second highest score will be awarded the Reserve Class Champion. To be eligible to receive a Class Champion or Reserve Class Champion (second place) award, a wine must have earned at least a silver medal in Phase I. If there are not at least two gold or silver medal winners, the class will not have a Reserve Champion. If there are no gold or silver medal winners, the class will not have a Champion.

**Texas Class Champions and Reserve Texas Class Champions:** Within the class, the Texas wine with the highest numeric summary that won at least a silver medal will be awarded Texas Class Champion. The Texas wine with the second highest score will be awarded Reserve Texas Class Champion. To be eligible to receive a Texas Class Champion or Reserve Texas Class Champion award, a wine must have earned at least a silver medal in Phase I. If there are not at least two qualifying wines from Texas, the class will not have a Reserve Texas Class Champion. If there are no qualifying wines from Texas, the class will not have Texas Class Champion or Reserve Texas Class Champion.

**Regional Class Champions and Reserve Regional Class Champions:** The 2024 feature region is Chile. If a wine is from the featured region, the winery must identify it as a wine from that region in the entry process by selecting the correct appellation. All wines from the feature region must compete for region awards. The Show reserves the right to edit the entry if we find it has not been entered correctly. Within the class, the regional wine with the highest numeric summary that won at least a silver medal will be awarded Regional Class Champion. The regional wine with the second highest score will be awarded Reserve Regional Class Champion. To be eligible to receive a Regional Class Champion or Reserve Regional Class Champion award, a wine must have earned at least a silver medal in Phase I. If there are not at least two qualifying wines from the featured region, the class will not have a Reserve Regional Class Champion. If there are no qualifying wines from the feature region, the class will not have Regional Class Champion or Reserve Regional Class Champion.

**Ties:** If there is a tie for Class Champion, Texas Class Champion, or Region Class Champion the tied wines will be revaluated by the original panel for that class. The panel will vote (and may re-taste) to establish which is the Class Champion and which is the Reserve Class Champion

If the scoring indicates a clear Class Champion but there is a tie for Reserve Class Champion, Reserve Texas Class Champion, or Reserve Region Class Champion, the tied wines will be voted on (and may be re-tasted) by the panel with one wine being designated the Reserve Class Champion.

## **PHASE II JUDGING: SEMI-FINALS ROUND**

**Advancement of Wines:** All (overall) Class Champion wines with a medal summation of “410” and above will advance to the Phase II Semi-Finals Round. The semi-finals round will be divided into (4) groups: Red, White, Sparkling and Dessert Wines.

**Semi-Finals Judging:** During Phase II of the Competition, all advancing wines from Phase I are judged to determine which wines will advance to Super Panel.

**Scoring Guidelines:** The Semi-Finals Panel is comprised of a group of five to seven judges. Semi-Final panel judges receive all wines from a group (Red, White, Sparkling, Dessert) to be scored at the same time, regardless of variety. Judges will taste all wines and rank his/her top fifteen (15) overall selections by secret ballot. In the Semi-Finals round, judges must provide a rank (1-15) if wines are available to rank. A judge may not choose to omit a ranking for a wine if a rank space is available on their score card. Additionally, in the Semi-Finals round, discussion amongst judges is prohibited, except if a bottle served may be deemed unacceptable (i.e., corked, or other imperfection).

Scoring by the Super Panel judges for is reflected in the numeric formulation as below:

|                      |                      |                      |
|----------------------|----------------------|----------------------|
| Top pick – 15 points | 6th pick – 10 points | 11th pick – 5 points |
| 2nd pick – 14 points | 7th pick – 9 points  | 12th pick – 4 points |
| 3rd pick – 13 points | 8th pick – 8 points  | 13th pick – 3 points |
| 4th pick – 12 points | 9th pick – 7 points  | 14th pick – 2 points |
| 5th pick – 11 points | 10th pick – 6 points | 15th pick – 1 point  |

The fifteen (15) wines receiving the most points as summed among all Semi-Final Panel judges will advance to the Super Panel. If there is a tie which makes more than 15 wines from a particular group eligible for the Super Panel, the panel will be asked to break the tie by voting once again on the wines in question.

If there are 15 or less wines from a particular group which are eligible for a Semi-Final Panel group, those wines will automatically advance to the Super Panel.

## **PHASE III JUDGING: SUPER PANEL ROUND**

### **Advancement of Wines**

If a Top Award category does not have any wines advance into the Super Panel round, the wines from that group with the highest numeric summary in Phase II will be re-tasted by an available Phase II panel of judges to vote on the top wine from that group. If there are no

eligible wines in Phase II, then the wines from that group with the highest numeric summary in Phase I will be re-tasted by an available Phase I panel of judges to vote on the top wine from that group. This wine will become the automatic Top Award winner and will not be tasted in the Super Panel Round for other awards.

### **Super Panel Judging:**

During Phase III of Competition, all advancing wines from Phase II are judged to determine the International Wine Competition Top Awards.

A Super Panel will taste all advancing wines to determine six (6) of the Top Awards:

- Grand Champion Best of Show
- Reserve Grand Champion Best of Show
- Top Red Wine
- Top White Wine
- Top Dessert Wine
- Top Sparkling Wine

**Super Panel:** The Super Panel is comprised of a maximum of 13 judges.

**Scoring Guidelines:** Super panel judges receive all wines to be scored at the same time, regardless of variety. Advancing wines are poured by group (i.e., sparkling, white, red and dessert). Judges will taste all wines and rank his/her top ten overall selections by secret ballot for Grand Champion Best of Show and Reserve Grand Champion Best of Show. At the same time, judges will also separately score their votes for Top Red Wine, Top White Wine, Top Dessert Wine, and Top Sparkling Wine. In the final round, judges must provide a rank (1-5 or 1-10) if wines are available to rank. A judge may not choose to omit a ranking for a wine if a rank space is available on their score card. Additionally, in the sweepstakes round, discussion amongst judges is prohibited, except if a bottle served may be deemed unacceptable (i.e., corked, or other imperfection).

Scoring by the Super Panel judges for **Overall Grand Champion** and **Overall Reserve Grand Champion** is reflected in the numeric formulation as below:

|                                 |                                 |
|---------------------------------|---------------------------------|
| Top pick – 10 points            | 6 <sup>th</sup> pick – 5 points |
| 2 <sup>nd</sup> pick – 9 points | 7 <sup>th</sup> pick – 4 points |
| 3 <sup>rd</sup> pick – 8 points | 8 <sup>th</sup> pick – 3 points |
| 4 <sup>th</sup> pick – 7 points | 9 <sup>th</sup> pick – 2 points |
| 5 <sup>th</sup> pick – 6 points | 10 <sup>th</sup> pick – 1 point |

The wine receiving the most points as summed among all Super Panel judges is declared as Grand Champion Best of Show. The wine receiving the second most points is declared as Reserve Grand Champion Best of Show.

Scoring by the Super Panel judges for **Top Red, Top White, Top Dessert, and Top Sparkling Wines** is reflected in the numeric formulation as below. Judges' rankings for Overall Grand Champion and Overall Reserve Grand Champion must be consistent with their rankings for Top Red, Top White, Top Dessert, and Top Sparkling.

|                                 |
|---------------------------------|
| Top pick – 10 points            |
| 2 <sup>nd</sup> pick – 9 points |
| 3 <sup>rd</sup> pick – 8 points |
| 4 <sup>th</sup> pick – 7 points |
| 5 <sup>th</sup> pick – 6 points |

**Other Top Awards:**

All wines qualifying for the following awards will be judged by a secondary panel of select Phase III judges, independent of the Super Panel. Eligible wines will be determined from the Phase I results and will not be affected by performance in Phase II.

**Top Texas Wine:** Eligible wines include wines made from grapes or fruit grown in Texas and must be (overall) class champions with a medal summation of 410 and above from Phase I Judging. To qualify for the Texas competition, a wine must meet the state and federal requirements to be labeled a "Product of Texas." Wines labeled "For Sale in Texas Only" may require an affidavit attesting to the origin of the grapes used. Wines bottled in Texas, but not legally a Texas wine (as determined by a minimum of 75% Texas fruit or juice) will not qualify for this award and may be disqualified if entered as a Texas wine., (Ref: TABC, Section 16.011). The entry form must also indicate an approved Texas AVA in the appellation listing. Judges will score qualifying wines according to the scale below:

|                                 |
|---------------------------------|
| Top pick – 10 points            |
| 2 <sup>nd</sup> pick – 9 points |
| 3 <sup>rd</sup> pick – 8 points |
| 4 <sup>th</sup> pick – 7 points |
| 5 <sup>th</sup> pick – 6 points |

### **George & Barbara Bush Foundation Award**

An additional award will be bestowed on the Top Texas Wine by the George & Barbara Bush Foundation. The Top Texas Wine, as determined above, will receive this additional award and special recognition from the Foundation.

**Top Region Wine:** The 2024 featured region is Chile. To qualify for the Top Region Wine award, a wine must list an approved appellation in Chile on the entry form appellation listing and must have been a (overall) Class Champion with a medal summation of 410 and above from Phase I Judging. Judges will score qualifying wines according to the scale below:

|                                       |
|---------------------------------------|
| <u>Top pick – 10 points</u>           |

| <u>3<sup>rd</sup> pick – 8 points</u> |
| <u>4<sup>th</sup> pick – 7 points</u> |
| <u>5<sup>th</sup> pick – 6 point</u>  |

**Top Value Wine:** Eligible wines include those with a suggested retail price of \$15.00 or less that earned a Class Champion or Reserve Class Champion award and a medal summation of 410 and above from Phase I Judging. If a class has a Class Champion and a Reserve Class Champion wine that would be eligible, only the Class Champion wine will qualify.

### **Other Top Awards (Continued)**

**The remaining Top Awards require no additional judging and will be determined by mathematical calculation as described below.**

**Top All-Around Winery Award:** The Houston Livestock Show and Rodeo will recognize the individual winery which has the greatest number of wines winning the highest number of awards and medals. This award will be calculated based on the “Brand” field on the Enofile entry form. It is the entrant’s responsibility to correctly list wine information on the entry form to be considered for this award. A minimum of six wines must be entered by a winery to be eligible for this award. The award will be based upon a combination of two calculations:

1. The total number of Class Champion, Reserve Class Champion, Double-Gold, Gold, Silver, Bronze, and Top Awards garnered by a winery. **Appendix III** lays out the number of points awarded to a winery for each level of award.
2. The percentage of entered wines winning awards by the winery.

The total score from 1 will be multiplied by the percentage of awarded wines in 2 for the final score. For example, if a winery garners 300 points from winning wines, and 40 percent of its wines medaled, the final score would be 300 times 0.40, or 120 points.

For the purposes of this award, a winery is defined as a single wine brand or label consumers generally recognize as a single producer. This will be calculated based on the “Brand” field in the Enofile entry form. It is the entrant’s responsibility to correctly list wine information on the entry form to be considered for this award. Any requests by an entrant for clarification of this classification will be addressed by officials from the International Wine Competition, and their decision will be final.

**Top Wine Company Award:** The Houston Livestock Show and Rodeo will recognize the top wine company consisting of multiple (three or more) wineries or brands (see winery definition above) under one owner which has the greatest number of wines winning the highest number of awards and medals. This award will be calculated based on the “Parent Company” field in the Enofile Company Info and Preferences setup. It is the entrant’s responsibility to correctly list wine information on the entry form to be considered for this award. A minimum of 18 wines from a combination of at least three wineries must be entered by a wine company to be eligible for this award. The award will be based upon a combination of two calculations:

1. The total number of Class Champion, Reserve Class Champion, Double-Gold, Gold, Silver, Bronze, and Best of Show awards garnered by each winery. **Appendix C** lays out the number of points awarded to a winery for each level of award.
2. The percentage of entered wines winning awards by the wine company.

The total score from 1 will be multiplied by the percentage of awarded wines in 2 for the final score. For example, if a wine company garners 300 points from winning wines, and 40 percent of its wines medaled, the final score would be 300 times 0.40, or 120 points.

For the purposes of this competition, a wine company is defined as multiple wineries or brands under one ownership. Any requests by an entrant for clarification of this classification will be addressed by a committee composed of officials from the International Wine Competition.

**Top Regional Wine Company Award:** The Houston Livestock Show and Rodeo will recognize the Chilean wine company which has the greatest number of wines winning the highest number of awards and medals from the featured region. This award will be calculated based on the “Parent Company” in the Enofile Company Info and Preferences setup and the “Appellation” field on the wine entry form. It is the entrant’s responsibility to correctly list wine information on the entry form to be considered for this award. A minimum of 8 wines over any

number of brand names-must be entered by a wine company owner/parent company to be eligible for this award. The award will be based upon a combination of two calculations:

1. The total number of Class Champion, Reserve Class Champion, Double-Gold, Gold, Silver, Bronze, and Top Awards garnered by each winery. **Appendix C** illustrates the number of points awarded to a winery for each level of award.
2. The percentage of entered wines winning awards by the wine company.

The total score from 1 will be multiplied by the percentage of awarded wines in 2 for the final score. For example, if a wine company garners 300 points from winning wines, and 40 percent of its wines medaled, the final score would be 300 times 0.40, or 120 points.

For the purposes of this competition, an Chilean wine company is defined as any number of wineries or brands, produced only from the defined Chilean AVAs under one ownership

**Top Texas Winery Award:** The Houston Livestock Show and Rodeo, in partnership with the Texas Department of Agriculture, will recognize the individual Texas winery which has the greatest performing entries from a Texas appellation overall in the competition. This will be calculated based on the “Brand” field in the Enofile entry form. It is the entrant’s responsibility to correctly list wine information on the entry form to be considered for this award. A minimum of six wines from a Texas appellation must be entered by a winery to be eligible for this award. For the purposes of this award, a winery is defined as a single wine brand or label consumers generally recognize as a single producer. Additionally, the wines produced by the winery must meet the state and federal requirements to be labeled a “Product of Texas” as further described on page 29 of the Competition Handbook. Any requests by an entrant for clarification of this classification will be addressed by a committee composed of officials from the International Wine Competition, and their decision will be final.

The award will be based upon the total number of Class Champion, Reserve Class Champion, Texas Class Champion, Reserve Texas Class Champion, Double-Gold, Gold, Silver, Bronze, Top Texas Wine, and other Top Awards garnered by a winery divided by the total number of wines entered by the winery. Points will be assigned as follows.

|                |                               |           |
|----------------|-------------------------------|-----------|

|                | <u>Each Silver Medal</u>      | <u>5</u>  |
|                | <u>Each Bronze Medal</u>      | <u>1</u>  |
|                | <u>Each Double Gold Medal</u> | <u>25</u> |
|                | <u>Class Champion</u>         | <u>50</u> |
|                | <u>Reserve Class Champion</u> | <u>25</u> |
|                | <u>Texas Class Champion</u>   | <u>50</u> |

|                  |  |            |
|------------------|--|------------|
|                  | <u>Reserve Texas Class Champion</u>        | <u>25</u>  |
|                  |  |            |
| <u>Phase III</u> | <u>Grand Champion Best of Show</u>         | <u>100</u> |
|                  | <u>Reserve Grand Champion Best of Show</u> | <u>50</u>  |
|                  | <u>Top Texas Wine</u>                      | <u>50</u>  |
|                  | <u>Top Red Wine</u>                        | <u>25</u>  |
|                  | <u>Top White Wine</u>                      | <u>25</u>  |
|                  | <u>Top Sparkling Wine</u>                  | <u>25</u>  |
|                  | <u>Top Dessert Wine</u>                    | <u>25</u>  |
|                  | <u>Top Value Wine</u>                      | <u>25</u>  |

The sum of the winery's points will be divided by the number of wines entered for the final score. For example, if a winery garners 300 points from winning wines, and enters 6 wines, the final score would be 300 divided by 6, or 50 points.

This award is presented in partnership with the Texas Department of Agriculture (TDA). The Top Texas Winery, as determined above, will receive this additional award and special recognition from TDA.

**Ties:** If there is a tie for any Top Award, a group of at least three (3) judges will be selected to reevaluate the wines. The selected judges will vote (and may re-taste) to establish which wine is the winner of the Top Award.
