

KEY TO REPORTS IN THIS PACKET

Reports in this packet are examples of pre-set and customizable reports. Uses for data in these reports is endless. The same data may appear in multiple reports, but the purpose will vary from report-to-report. Uses for the reports will vary, some may be for selecting replacement heifers, analyzing a dam's or sire's offsprings' weaning weight trends, ranking annual weaning weights, checking a cow's individual health record, maintaining herd health records, printing worksheets, and the list goes on.

The Cow T09 Report includes topics for inclusion of any life-time activity or data pertaining to an individual animal. This data can be extracted and customized into countless reports without compromising the individual's record.

Cow Inventory - Customized with nine data points sortable by column for ranking. Breeding dates may change for standing heat record.

Cow General Information - Customizable with data of your choice.

Active Cows - Sortable data. User selects data for this report.

Herd Health - Data entered one time, but is available in other reports and on individual animal's record.

Breeding - Last Breeding Dates vary if observed breedings recorded. PE breedings entered in bulk data entry.

Pregnancy Checking - Worksheet. Producer selects cows to be checked.

Calf Inventory - Sortable columns. Weights used for heifer retention and private treaty marketing.

Calves 2017-2018 - Customizable annual calf report. "Active" indicates heifer or bull retained as replacement or later potential sale.

Calves 2018-2019 - Current year calf crop. Report waiting for additional data. "Dam Age" monitored for decreasing WW trend.

Weaning Worksheet - Customizable and sortable columns to accommodate raw data entry.

Customer Purchase Record - This record maintained for future reference, ie. Customer wants genetic information, year purchased, etc.

Customer Purchase Record with Note - Recording of special situations or agreements.

T09 - Entire record of Cow T09

302R - Bull - First and Last page of Bull 302R "Offspring" Report. Actual report lists all offspring including NS and AI.

Sire Progeny Weaning Weight Study-Example of one study used in AI sire selection. All data from our herd. (Report generated in Excel)
