HLSR SCHOOL ART PHOTO BANK

The HLSR School Art Photo Bank is a unique resource created for students in registered districts participating in the School Art contest. The photographs available on this website are intended to be used as a **secondary source** that supports and enhances the primary focus or main idea of the artwork.

The Photographs in the photo bank are donated by members of the School Art Committee. At this time, the landscape and animal categories contain the most photographs. School Art committee members will be continuing to gather and take photographs to help grow the photo bank with the intention of this being a continued annual resource. New photographs will be added on a periodic basis.
